

Landscaping Schemes

Specification Sheet

We provide Landscaping Schemes for both commercial and domestic properties. Our digital pack (in the form of a PDF) will consist of:

- ✓ Site brief including photographs of the existing site and details of any existing landscaping features.
- ✓ Concept description and design aims;
- ✓ 2D or 3D landscape visualisation;
- ✓ Tree Survey, if required, providing details of any trees located on and around the property and recommendations for the management of these;
- ✓ Planting plan including plant key;
- ✓ Dimensions plan;
- ✓ Materials and construction plan;

How does it work?

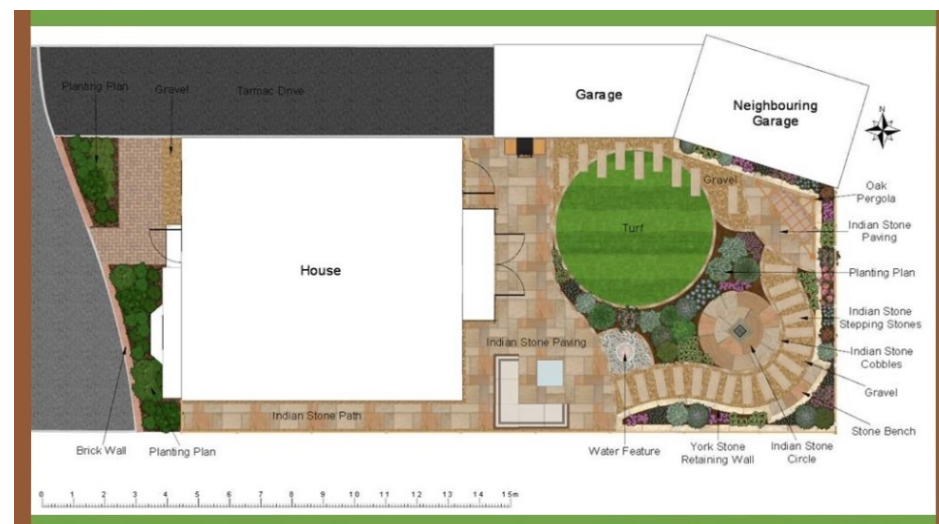

Our experts will be able to offer you advice and guidance regarding the plan or surveys you require and arrange for our consultants to carry out a site visit.

The consultant will meet with you on site to discuss the project and your requirements, including any specific details required for the planning application. At this point, measurements and photographs will be taken of the site to ensure any plans we put together are of the utmost accuracy.

Our experienced team will then put together the Landscaping Scheme documentation, liaising with yourself regarding any further details required and any existing documents or designs that will be integral to the plan. White label documents can be put together enabling you to easily incorporate our plans into your own and acting as an extension of your own services.

Pricing

Pricing for Landscaping Schemes are based on a range of factors. Please get in touch for an exact quote.
